Flat Paper Handle Making Machine

RZBS-180M

Flat Paper Handle Making Machine

MTED RZBS-180M paper bag handle making machine for flat handle is designed to automatically produce flat paper handles from narrow paper webs. It's generally used with semi-automatic paper bag making machine together to make paper carry bags with flat handles.

Taking four rolls of narrow web paper as raw material, the paper handle making machine makes flat handle loops, gluing the paper rolls and handles loops together and gradually cutting them off, thus forming flat handles.

The machine features automatic counting and automatic gluing functions, which can greatly improve your work efficiency of subsequent handled paper bag manufacturing.

Features

Features

- Compact Footprint
- Affordability
- Lifetime Support
- Capacity 6000 pairs/h
- Automatic Counting Function
- Automatic Gluing System

Technical Data

Model	RZBS-180MA	RZBS-180MB
Glue type	Hot melt glue	
Handle space	83mm	80/95mm
Handle width	12mm	
Handle length	36mm	
Paper thickness	100-120gsm	
Patch width	40mm	
Patch length	152mm	190mm
Production speed	6000pairs/h	
Power	380V, 3 phases 5 lines, 10kw	
Weight	4000kg	
Dimensions	5000 x 1500 x 1500mm (L x W x H)	

MTED also offers:

- Flat and Satchel Paper Bag Machine
- Square Bottom Paper Bag Machine
- Paper Bag Making Machine With Handle
- Flexo Printing Machine
- Twisted Paper Rope Making Machine
- Twisted Rope Rewinding Machine
- Twisted Paper Handle Making Machine
