Tray Forming Machine

Partnering with you at every step

KSH-1FS

Automatic Tray Forming Machine

KSH-1FS

KSH-1FS Automatic tray forming machine is designed and manufactured in accordance with European industrial standard. This machine produces high stiffness, strong and durable hamburger boxes with high quality and efficiency, and can also produce ordinary (without edge folding) cartons, suitable for sandwich boxes, pastry boxes, etc..

KSH-1FS is able to make up to 18,000 perfectly formed trays per hour (1 lane production). It's well-suited for a variety of applications from food sectors.

Features

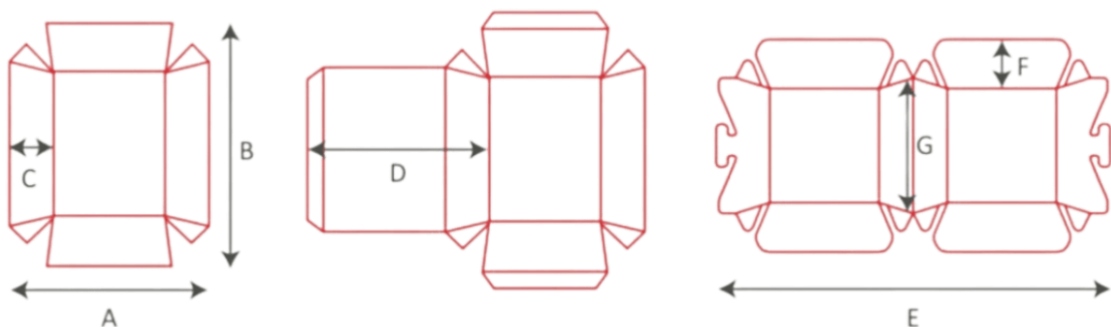

Features

- Easy & Fast commissioning with only one operator
- Transportable without dismantling
- Solid output with up to 18,000 perfectly formed trays per hour (1 lane production)
- Shorter changeovers, reduced downtime
- Low noise level for better operator comfort during operation
- Servo driven blank advance and mandrel
- Batch separating by paper tape inserter or pin-marker
- Smart touch screen control system, allows for easy machine operation, troubleshooting and maintenance
- Complete choice of gluing systems to suit different applications, including cold gluing unit and hot melt gluing system

Technical Data

Technical Data	KSH-1FS
Suitable Materials	Paper board 200-600gsm Corrugated board thickness $\leq 1.5\text{mm}$
Blank Length	100-450mm
Blank Width	100-600mm
Box Height	15-200mm (can be customized)
Degree of Taper	5-40°
Production Capacity	50-300pcs/min
Foot Print	3,600 x 1,500 mm
Total weight	2500kg
Power	380V 50HZ 3phases 4lines

MTED also offers:

- Paper Bag Machine
- Paper Handle Making Machine
- Paper Tray Forming Machine
- Aluminium Foil Container Machine
- Stack Type Flexo Printing Machine
- Roll Slitting and Rewinding Machine
